

10,000 PERSONS MADE HOMELESS BY FIRE IN ATLANTA

of raids in the German lines we took 10,000 prisoners."

ITALIANS BEAT BACK ALL AUSTRIAN DRIVES, INFLECTING BIG LOSS

Heavy Artillery Duel North of Gorizia Is Followed by Infantry Action.

ROME, May 22 (via London).—Following is the report issued to-day by the Italian War Office:

"On the Trentino front the enemy, notwithstanding the repulse he has suffered in the last few days, still persists in making desultory and fruitless attempts to divert the Italian General Staff from its main objectives. Raids were made in force last night against our advanced line at Cavento Pass, Adamello, Muberga Ridge, in the Chiasso and in the Glumella Valley at Rio Ponzale. All were repulsed.

NO ALLIANCE FOR MEXICO AGAINST UNITED STATES

Even Thought of It Would Be National Suicide, Says Ambassador—Resources Open to Allies.

WASHINGTON, May 22.—It would be national suicide for Mexico even to consider allying herself with any European power against the United States.

This was the statement made to-day by Ymasio Bonillas, Mexico's new ambassador. Mexican ports are to remain open to all belligerents, as were those of the United States before the war.

With conditions everywhere improved, Bonillas stated, Mexico is prepared to turn out copper and oil and metals in enormous quantities, and all these commodities of war are to be made more accessible to overseas purchasers than heretofore.

"Mexico's famine days are over," said Bonillas. "She will have sufficient to feed her own people and to sell to the United States and her allies."

Mexico wants peace now—not war. We know what war means. Mexico is a greatly weakened nation. She wants now to develop her resources, strengthen her Government and steel her economic system.

MEXICO CITY, May 22.—Gen. Alvaro Obregon, who recently resigned as Minister of War, at a farewell dinner before his departure for Sonora, said Mexico's self-respect called for a policy of neutrality in the war.

Even if Mexico joined the war, he said, she could give no effective aid. She could furnish neither men, ships, supplies nor money. Therefore it would not be compatible with her dignity to accept what benefits might accrue to her from entering the war. After visiting his home in Sonora, Gen. Obregon will go to Washington and New York.

ALLIES BOMBARD KAVALA.

Thirteen Warships and 12 Airplanes Attack Macedonian Seaport.

SOFIA, May 22 (via London).—Today's Bulgarian War Office statement, after reporting artillery actions in various sections of the Macedonian front, announced that thirteen enemy warships, including twelve submarines, had bombed Kavala, while twelve airplanes dropped bombs on the town.

Several houses in Kavala were destroyed, and a number of persons killed. No military damage was done. One hostile airplane was shot down.

Luxuries for Boys at the Front May Be Mailed Free.

WASHINGTON, May 22.—Uncle Sam will pay the freight if any one wants to send luxuries, candy and similar luxuries to soldiers at the front.

BRITISH HONOR DEWEY; PLACE WREATH ON TOMB

Admiral de Chair Also Commemorates Arrival of U. S. Destroyers in English Waters.

WASHINGTON, May 22.—The British Navy paid tribute to-day to the memory of Admiral Dewey when a floral wreath was placed on his tomb by Rear Admiral de Chair and Commander Lawford, the Admiralty representatives with the British official mission.

The wreath was placed under instructions from London, both to commemorate the friendship between the two great fighting forces and to express the British Navy's gratitude at the arrival of American destroyers in British waters. The wreath, laid in the presence of Admiral Benson and other American officers, bears the following inscription:

"A tribute to the undying memory of George Dewey, Admiral of the United States Navy, with the respectful homage and esteem of the British navy."

Admiral Dewey probably was closer to the British Navy than any other American naval officer, because of the historic incident in Manila Bay, when a German squadron behaved in a hostile manner and the British naval commander there gave unmistakable signs that he would support Admiral Dewey if necessary.

Between Lake Garda and the Adige the enemy, after an intense and prolonged bombardment with artillery of all calibers, attacked our position on Monte Dosso Alto, southwest of Leppia Lake, and on Monte Sogno. He then drove back with heavy loss. Other local attacks, which were attempted yesterday in the Polesina Valley, on the Aalago Plateau and in Carnia failed.

"On the Julian front, in the sector north of Gorizia, the artillery duel, already spirited, became more intense late yesterday, but was not followed by infantry action. The position which we captured on Hill 363, east of Piava, was consolidated. One gun and about 30 prisoners fell into our hands. East of Gorizia the enemy attempted repeatedly to drive us from Hill 126, south of Graciosa, but failed on account of the effective action of our artillery reserves.

"Last night one of our airplanes bombarded the enemy's rear lines near Vogrta, in the Frijido valley. It returned safely."

Berlin Makes Usual Claim of Defeating British and French.

BERLIN, May 22 (via London).—Following is the report issued to-day by the War Office:

"Army Group of Crown Prince Rupprecht—in the Ypres sector, near Looz, at Oppy, and on a wide front south of the Scarpe the artillery was active throughout the day. The British failed completely in several strong attacks in the morning at Bullecourt and later at Croisilles, suffering sanguinary losses. More than ninety prisoners were taken.

"Army group of the German Crown Prince. Between the heights of the Chemin-des-Dames Road and the Aisne, north of Rheims, and from the upper Vesle to the Suippes Valley violent artillery duels developed at intervals. Southwest and south of Neufchateau the French attacked our front positions several times in the course of the day. The Wurmtemburg regiments fighting there repulsed the enemy and in a counter-attack captured more than 150 prisoners."

U. S. khaki outfits, puttees, coats, breeches and hats. \$9.00

"BONE DRY" NAVY, AS WELL AS ARMY, PROPOSED IN BILL

Measure Asked by Secretary Daniels Is Introduced in the House.

By Samuel M. Williams.

WASHINGTON, May 22.—Chairman Padgett of the House Naval Committee this afternoon introduced a bill giving the President power to enforce prohibition in the navy as well as in the army.

The bill, suggested by Secretary of the Navy Daniels in a letter to Congress, authorizes the President to make regulations that shall forbid any one to "sell, furnish or give" intoxicants to navy officers or men in uniform. A penalty of \$1,000 fine or a year's imprisonment or both is provided for violation.

Temperance advocates, exhilarated by brighter prospects of success than ever before, are praising their advantage along the line of saving food from being converted into alcohol. They insist on attaching Prohibition amendments to food conservation bills.

But a significant statement was made by Senator Simmons, Chairman of the Finance Committee, himself an advocate of Prohibition, that proposals of this character should be referred to his committee, because the subject of restricting alcohol production is directly involved in financial measures. It will be impossible for the Finance Committee to report a revenue measure until it knows whether alcohol will be left to tax.

The Government now derives \$350,000,000 annually from tax on liquors and under the pending revenue bill this sum will be enormously increased.

Out of the confused situation, three Prohibition propositions have evolved thus far, any one of which might be enacted into law:

1. The Webb bill, radically prohibiting the use of food products in the manufacture of all alcoholic liquors.

2. The Lever bill, proposing to give the President discretionary power of regulation according to war necessities.

The Wadsworth bill, prohibiting manufacture of spirituous liquors, but permitting light wines and beers.

Food legislation, laid aside in the Senate yesterday, is taken up again at once. The Senate Agriculture Committee to-day reported a redrafted bill dealing with production, by Representative Lever and made plans to bring it before the Senate for action at once. By Friday it is planned to introduce the food control bill dealing with price-fixing, food administration, prohibition and regulation of grain exchanges.

The amended bill agreed upon to-day by the Senate Committee provides for a national food survey and appropriations for various measures to increase food production.

Provisions of the House bill designed to prevent money from being struck out by the Senate Committee, leaving the new bill to cover only questions of production.

A provision in the House bill for commandeering seed supplies was struck out by the Senate Committee. An appropriation of \$2,000,000 to combat hog cholera and other livestock diseases and to conserve meat, poultry and dairy supplies was increased by the Senate committee to \$4,500,000.

The House bill's appropriation of \$4,500,000 for stimulation of foodstuff production and elimination of waste was reduced by the Senate committee to \$2,000,000.

U. S. TO HAUL OWN MAILS.

Will Take Over Inter-Station Transportation Here.

The Government is arranging to take over the inter-station and railroad depot transportation of mails in Manhattan and Brooklyn, beginning May 31, 1918.

This was learned to-day through the posting of a notice asking for bids for the hauling of mail in this section. Cost of the present service is \$500,000 a year for Manhattan and \$100,000 for Brooklyn. The Manhattan service covers the territory below Forty-second Street, and the Brooklyn service covers the central business section of that borough.

Twelve Workers Killed When It Crashes Into a Freight.

CLARKSBURG, W. Va., May 22.—Twelve trainmen are believed to have been killed and a number of others seriously injured when a wreck train on the Baltimore and Ohio Railroad crashed into a moving freight train at Wallace, Clarksburg, this morning.

Five bodies have been removed from the wreckage.

Wilson Signs Bill Making Naval Officers' Pay Permanent.

WASHINGTON, May 22.—President Wilson to-day signed the bill increasing the size of the Navy from 87,000 to 150,000 men and of the Marine Corps from 17,000 to 30,000.

ITEMS FOR INVESTORS.

Calumet and Hecla—Quarterly dividend of \$25 per share.

Central Leather Co.—Regular quarterly dividend of 13.4 per cent. on preferred stock payable July 2 to stock of record June 8.

Atlas Powder Company—Regular quarterly dividend of 2 per cent. and an extra 3 per cent. on common stock. Both payable June 10 to stock of record May 21.

USING SPANISH WAR SHELLS, MONGOLIA REPORT REVEALS

Accident That Caused Death of Two Nurses Is Declared Inexplicable.

WASHINGTON, May 22.—Shells used aboard the Mongolia, on which two American Red Cross nurses were killed on Sunday, and the liner St. Louis were not faulty, so far as navy experts can find, none was tampered with and their failure to operate properly is inexplicable, according to an official report submitted to Secretary Daniels this afternoon by Admiral Earle, chief of the Ordnance Department.

A preliminary report of the Naval Board of Inquiry sitting in New York on the Mongolia case indicated that the breech block was secure. One theory to-day was that a portion of the neck of the cartridge with a brass cup covering had split loose in the firing and scattered as it left the mouth of the gun.

Some of the shells used for the merchant craft, the report said, were made in the Spanish War.

Admiral Earle held that when the shells were made did not enter into consideration, because they were supposed to operate perfectly despite age or exposure to the elements.

It was learned to-day that one shell aboard the American steamer St. Paul exploded inside a gun. The Navy Department said the only instructions brought to its attention when shells failed to work properly were the Mongolia, St. Paul and St. Louis.

The supports for certain guns of the St. Louis's armament are understood to have proved weak on her first trip, but this was corrected on her arrival at an American port on the return trip.

Secretary Daniels made an official statement on the Mongolia accident earlier to-day, in which he said:

"When about 100 miles to sea, in accordance with the usual procedure, guns were fired to test mounts, ammunition and to practise the navy crew in their use. The guns were of the 6-inch calibre, for which the shell and powder are loaded separately into the gun. The powder charge is contained in a brass case and there held in place by a partition board, and distance pieces, and a brass mouth cup which fits closely, thus making a moisture-tight joint in order that the powder may always give the velocity and pressure intended."

"When the gun is fired this brass cup in propelled some distance, some times whole and sometimes in pieces, always in front of the gun. Several nurses who were watching the firing were sitting on the promenade deck, some 175 feet abaft and ten feet above the gun. On the third shot the brass mouth cup struck the water peculiarly, boomeranged directly back to the ship, struck the stanchion near where the nurses were sitting and broke. Its pieces instantly killed Mrs. Edith Ayres and Miss Helen Burnett Woods of Chicago, Ill."

This method of scaling the cartridge cases has been used in the navy for many years, certainly for fifteen years, and that such an accident as this said one could occur had not even been considered possible by ordnance experts.

Wounded Nurse Improving; Recovery Expected Soon.

Miss Emma Matzen, the Red Cross nurse injured Sunday on board the Mongolia while tending one of the wounded nurses killed, was today being nursed by Red Cross officials here to be doing nicely, and is expected to recover soon.

RUSSIA IN THE WAR.

PETROGRAD, May 22 (via London).—To-day's War Office report is as follows:

"In the Western and Rumanian Fronts—Fussiliades have occurred. 'Caucasus Front—Kurds attempted an attack south of Erzingan, but were dispersed by our fire.'"

JAMAICA WINNERS.
